

Thanks for buy this After Effects Template.

This is the Led 1 Vertical AE Template perfect for your social media like Instagram.

To edit:

* To add your logo: Import your logo, drag and drop to the composition "Your logo here" , deactivate the example image and text, adjust the scale, center your logo and voilà. You will see on "Main Comp" the animation of your logo perfectly.

* Also you can change the text inside the "Your logo here" composition instead of using a logo, simply double click the text and change it, adjust the scale, center it (do not forget to deactivate the another layers) and voilà. You will see your text animated on "Main Comp".

You can use your own fonts or in this case download "SquareFont" at:
