

# How to customize this template?

## Open Motion Array Folder

(Ctrl+0 on the keyboard for project panel)

- 01. Edit Comps:**  
All Texts and Images Place holders are here. Open it and replace texts and images and etc.
- 02. Final Comp:**  
Open Final Render Comp for rendering.
- 03. Other:**  
You don't need this folder.

## Color Controlling (F3 on the keyboard)

Select Contort Layer on final render Comp and go to effect controls Panel.

You can simply change colors.
