

**THANK YOU FOR PURCHASING THIS TEMPLATE.
THIS DOCUMENTATION FILE INCLUDES EVERYTHING YOU NEED TO
KNOW IN ORDER TO CUSTOMIZE YOUR PROJECT AND GET STARTED.**

1. HOW TO INSERT PHOTO (OR VIDEO)

Go to Folder "Edit Comps / Media Holders", open one of composition "MH 1" or others media holders in this folder.

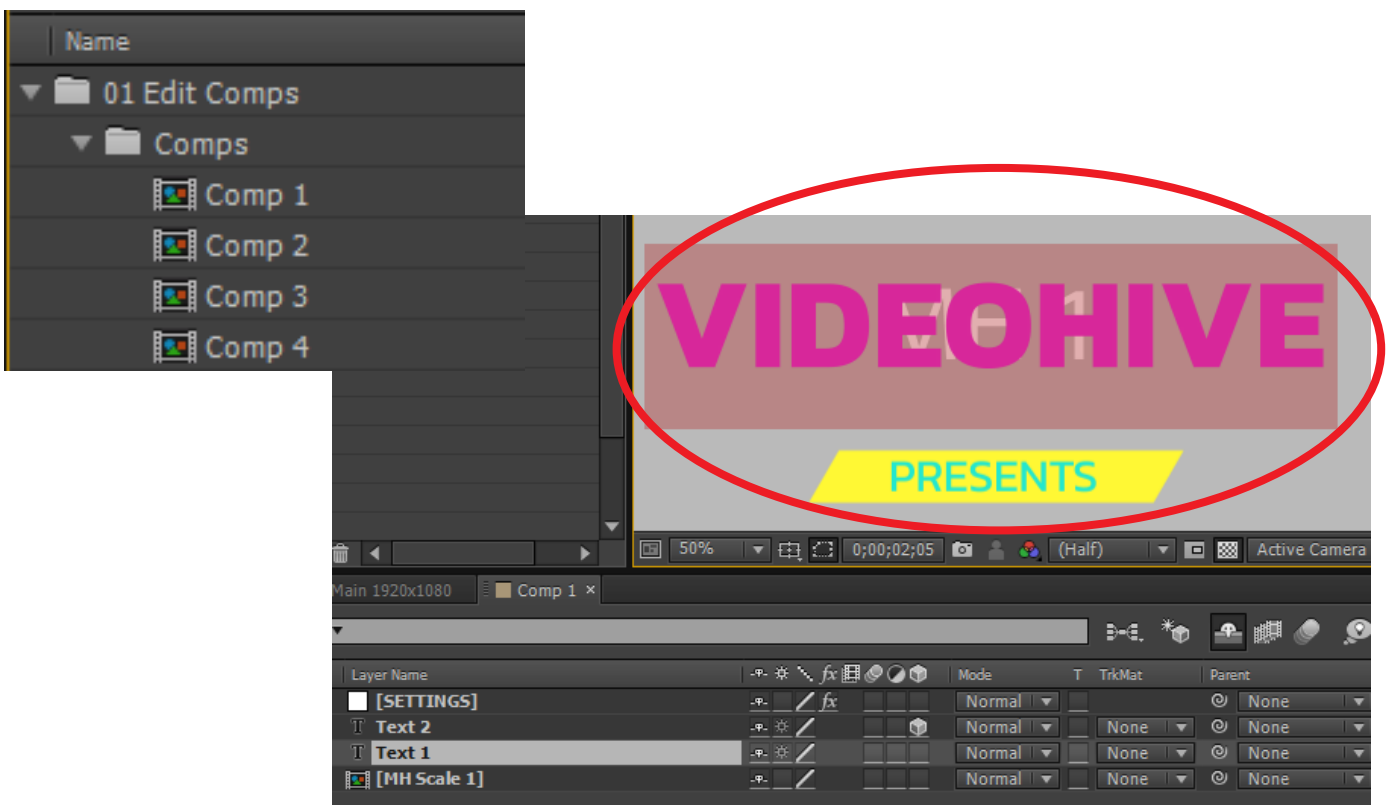

Import your photo or video, then drag and drop it into the Layers panel.

Make sure you rescaled and adjusted the position as this is important for the final look.

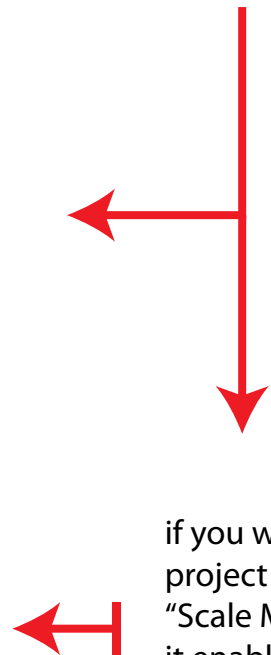

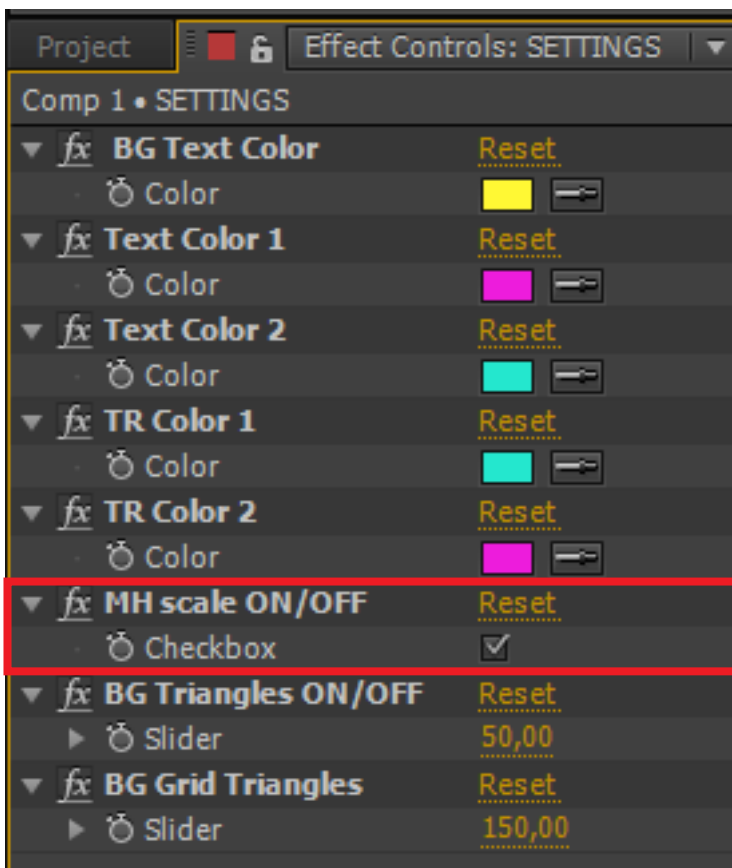

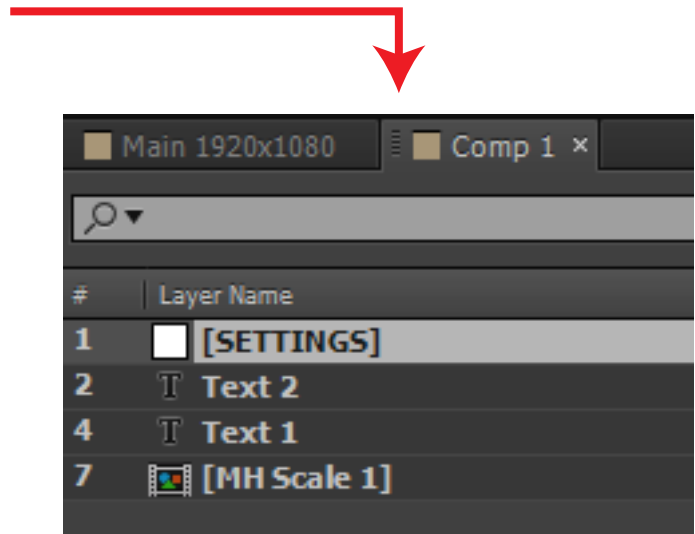

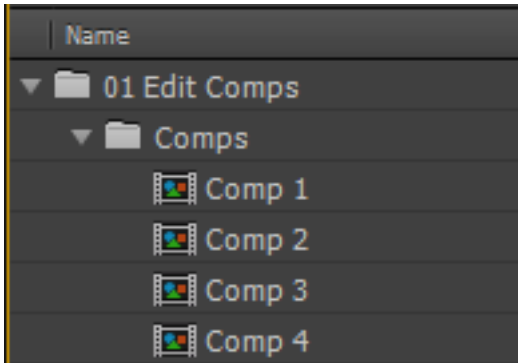

2. INSERT AND EDIT YOUR TEXT

Go to Folder "Edit Comps / Edit text (Main Comps Project)", open one of composition "Comp 1" or others compositions in this folder and replace text.

3. CHANGE COLORS AND OTHER SETTINGS

Go to Folder "Edit Comps / Edit text (Main Comps Project)", open one of composition "Comp 1" or others compositions in this folder. Layer "SETTINGS" contains the color settings in the project.

if you want to insert in the project photos you can use "Scale Media ON / OFF" it enables and disables scaling your media files

4. CHANGE THE DURATION

Change the duration of the project, move the compositions in the composition "Main 1920x1080" on the time line
