## **~ FREQUENTLY ASKED QUESTIONS ~**

**Q: My Mac OS X and Final Cut X are not in English and I can not install the template, what can I do?**

**A:** Each OS X language changes only the last word from the path [in this case « Titles » ] to the correspondent word in that specific language. For the installation path to work on non English OS X all you need to do is to change the last word in the installation path with the equivalent on that language. For French the correspondent word for

« Titles » is Mosaïques so the new installation path will be:

## **FRANCAIS**

### **With Motion:**

~/Movies/Motion Templates/Mosaïques

### **Without Motion**

/Applications/Final Cut Pro/Contents/PlugIns/

**Q: I try to open the template with Motion but I receive this message: “This file cannot be opened because it was created in a newer version of Motion.” what can I do?**

**A:** To solve this error please update the Motion to the latest version available. This template requires Motion 5.3 or later to work and your Motion version is older than 5.3

**Q: Are the titles 4K compatible?**

**A:** Yes. All the templates are shape based graphics and can be used with 4K projects without quality loss.

**Q: What duration have the titles?**

**A:** The duration for each title is adjustable. All animation will be retained.
